

**America's
Best
Inoculant**[®]
The high yield leader.

Increase Yields Solid Returns

Your Decision is Easy

With most growers experiencing a 3 bu/acre or better yield improvement with America's Best Inoculant™ and some experiencing up to 14 bu/acre, the decision to use a soybean inoculant this season is an easy one. And, it only costs pennies per acre to inoculate with America's Best Inoculant. Can you afford to miss that much increased profit?

- Developed by the best minds in Rhizobium genetics
- Backed by research and scientifically proven by test plot results
- Triple stack Rhizobia strain package for top yield responses
- Adaptable to multiple soil types and planting conditions
- Fast, easy application
- Compatible with many common seed treatments
